BAPTIST REVIVAL GROWING IN INTEREST.

The Baptist revival is growing in interest and numbers. The pastor's sermon last night, on "The Motherhood of God," was powerful and pleading. The Spirit of God was in evidence and it is felt that much good was accomplished. Those who have stayed by these meetings have been greatly blessed. Those who do not come are losing a great deal. Let everyone rally to its support. It is felt that God has a store a great blessing for this church. Come out tonight and learn where the meaneast man in town lives.

Don't Clean House--Put on Your Hat

Come down street and say to us—"I want a machine that will save time and strength, make house-cleaning easy for me." We'll show you the HOOVER!

Say to us—"I want a suction sweeper that will get out all the dust and dirt embedded in my rugs and carpets; as well as the lint, thread and hair that make my floor coverings look dingy. I want a machine that cleans thoroughly." Put the HOOVER to the test!

Say to us—"I want the machine that does this work easier, quicker and better than all others." And then we will prove to you that "You need the HOOVER!"

HOOVER SWEEPING: The brush loosens hair, thread, lint, sewingroom litter, and lifts the crushed nap to its correct position, thereby restoring the original colors to floor coverings.

HOOVER SHAKING: The brush loosens and raises to the surface all the embedded dirt, making its removal easy for the powerful suction.

HOOVER SUCTION: The suction raises the rug a quarter of an inch from the floor—then the revolving brush vibrates the raised portion, loosens and picks up the embedded dirt. The powerful suction then easily draws it into the medicated dust bag where it remains until intentionally emptied.

Housekeepers who once use this Electric Sweeper will never be satisfied with any other nor with the laborious and inefficient old way of cleaning carpets. You can rent this sweeper from us for \$1 a day

HOWS HOW THE TARIFF WORKS.
 A curious instance of how the present customs law is working is found in Cleveland, where the Worsted Mill Company announces an increase of capacity from \$3,000,000 to \$10,000,000, whereat the Democratic press shouts with joy and says that is the way business is going and it must be a terrible state of things that leads a concern to add more than three times to its capital.
 But the company itself says that the increase of capital is absolutely compelled in self-defense, since otherwise it would be unable to compete with foreign rivals, for nothing but almost unlimited amount of capital will enable the domestic concern to make those economies which will enable it to have any chance against the very low comparative rate of wages paid abroad.
 Of course that raises the question of whether the average business man is able to add three or four times over to his capital in order to keep alive. The mere statement of such a question is its own answer.—Oklahoma City Times.

IMPORTING CORN IN OUR CORN BELT.
 Chicago received a carload of corn from Argentina last Friday. Think of it! Chicago, the metropolis of the Mississippi Valley, where corn is king, importing corn from the extreme of South America, as if Illinois corn raisers had lost their knowledge of how to grow corn! This is the very irony of Free-Trade's sacrifice of American farmers. It is reported that Argentina has an export surplus of 250,000,000 bushels of corn this last year. The harvest is now on in that country.
 Since Free-Trade went into effect the United States has imported 8,000,000 bushels from Argentina in competition with our own farmers, thereby lowering the price on all corn in America. Every corn raiser is just to that degree paying the penalty of Free-Trade's injustice.—Northwestern Agriculturist.

HOW IT WORKS IN ITALY.
 The Electrical Railway Gazette has an interesting article on the workings of government ownership of Italian railways. And a careful reading of this article, which is, manifestly based upon facts, fails to reveal anything encouraging to the proponents of ownership. Faced by a threat of a strike involving 100,000 state railway employees, the premier has agreed to pension and wage increases that will cost \$3,000,000 annually, and he informed the Chamber of Deputies in what the press reports suggest to be an offhand manner, that this sum was "to be obtained by increasing the railway rates." The system here exhibited has at least the merit of simplicity and dispatch. There are no long drawn-out hearings and investigations such as are necessary here to adjust wages or to increase rates. But of course the money to pay for the premier's liberality will come out of the pockets of Italian travelers and shippers, and in the long run it is very doubtful whether or not they will enjoy repeated experiences of this character which, history shows, are to be expected under municipal or government ownership of public utilities.—Huntington Herald-Dispatch.

WHY GO TO CHURCH?
 The Church is the greatest institution in the world. About the least any one can do is to support it by his attendance.
 R. P. D. THOMPSON.

It is not so much a question of what a man can do to help the church but the real reason for going is because the church can help the man.

Since honesty, sobriety and decency as well as spirituality is taught in the churches, every person should attend church services for his own good, and the good the church can do others.

If the church gives us hope and solace in the time of death, we should not neglect to attend its services in the time of our health.

Maysville has as attractive services as any could properly ask of any church. Those who attend regularly often wonder why some people willfully neglect this high privilege. Fully five thousand people in this city alone should be at church on May third.
 J. ED PARKER.

There are some men in Maysville who are "down and out" because they did not stay by the church. If any man has lost heart, let him start to attending church and by so doing get a new hold upon life.

After a hard week's work there is nothing rests one quite so much both in mind and body than to attend a good church service. The "Go-To-Church Day" should be indorsed by all.
 A. H. THOMPSON.

I go to church because, after the rush and hurry of the week's work, I feel the need of the influence of the church to draw me from the rut into which we are apt to fall, toward the peace of spiritual things.

Because, in supporting Christianity and the Church, I feel that I am giving a little aid to the only institution that has the key to the solution of all our problems of government and social betterment, and without which no government for the benefit of the governed will ever exist.
 GEORGE H. SCOTT.

In order to keep off the chills "be ye steadfast, immovable, always abounding in the work of the Lord, for as much as ye know that your labor is not in vain in the Lord."
 I. M. LANE.

The church is a booster all the way through life. We all should desire to be boosted over the rough places of life. It is hard to be half decent out of the church, so we ought to have influence of the church while we try to be wholly decent.
 GEORGE H. FRANK.

Why I Go To Church? Answer.
 Rev. A. F. Stahl.
 Dear Sir: I am asked to answer, "Why Do I Go to Church?" I cannot do better than to answer, as I shall, largely in the language of the Book of Common Prayer.
 In the first place, I go because when a child my parents enjoined the duty upon me, and the habit has become a second nature.

In the second place, I go publicly to confess my sins unto my Heavenly Father, with an humble, lowly, penitent and obedient heart, to the end that I may obtain forgiveness of the same by His infinite goodness and mercy.

In the third place, I go to render thanks for the great benefits I have received at His hands, to set forth His most worthy praise, to hear His most Holy Word, and to ask those things which are requisite and necessary, as well for the body as the soul.

In the fourth place, I go to receive in a spiritual sense, the Body and Blood of Christ, that my soul may be strengthened and refreshed thereby, as my body is by the Bread and Wine; and, further, I believe that, through this channel of grace and in this act of worship, I join with Angels and Arch-Angels, and with all the company of Heaven in lauding and magnifying His glorious name; with those, indeed, who are evermore praising and saying, Holy, Holy, Holy, Lord God of Hosts, Heaven and earth are full of Thy glory; glory be to Thee, O Lord Most High. Amen.
 Very truly yours,
 A. D. COLE.

LOVE.

It is a thing that's very hard sometimes to understand. The short man always asks the tall sky scraper for her hand. The man who's six feet in his socks will wed, for good and all, Some maiden who is passing fair, but only four foot tall.

The prettiest of all the gals will wear some cross-eyed gink, Who doesn't look as though he had quite brains enough to think. The learned man, who knows his books, and has a learned mind, Is apt to wed the dizziest young blonde that he can find.

The pious girl is apt to draw some old, night-prowling shark, The handsome man will get a maid who's homely in the dark. The pastor of the church may draw a brainless buttercup, The best way known, to solve the problem, is to give it up.

A NEW LIVE STOCK EXCHANGE.

Inquiries have been so frequently made at the Kentucky Agricultural Experiment Station for information regarding where live stock of various classes could be bought and also inquiries for purchasers have been so numerous that the Extension Department of the Experiment Station has made arrangements to conduct a live stock exchange, or in other words a medium through which live stock of all classes can be bought and sold by the farmers of the State.

The plan is for any one who has stock to sell to make that fact known to the Experiment Station, giving an accurate description of each animal offered for sale, the price asked, etc.

DEODAR WOOD IS FOUND

In Bridge For Four Hundred Years Very Little Decayed.

The deodar tree is planted extensively both in India and in Europe, not only because of its very great ornamental value, but also because of the superiority of its wood, which is compact, resinous, highly fragrant, of a deep rich color sometimes resembling polished brown agate. It is also of the most durable nature, instances being on record where its timber, employed in the roofs of buildings, was found perfectly free from decay after nearly two hundred years. The records show that one piece of deodar used as a part of an old bridge in Kashmir, India, at the end of four hundred years proved to be very little decayed, although it was exposed to the action of the water. Pillars of it in the great mosque are said to be of the year 803, and those on the Hindoo temples are from six hundred to eight hundred years old.

WHERE THE BULLETS FLY

Maysville Boys at Vera Cruz and Anxious for Row with Greasers — Granddad Receives Patriotic Letter.

April 20, 1914.

Co. A, 19 Infantry, Camp Crockett, Galveston, Texas.

Mr. Coleman A. Wilson:

My Dear Old Grand Pa.—I will now write you a few lines to let you know that I haven't forgotten you and Uncle Emmitt. Well, Granddad how is everything around Old Maysville. I sure would like to see you all at home. We just got back from a hike from Houston, Texas, and we are ordered down into Mexico. We will leave tomorrow on a transport for Vera Cruz, and I guess we will later fire upon the City of Mexico. I guess you saw the papers where the Greasers would not salute the "Stars and Stripes" and we are going to clean them out. It looks like I won't get to come home in August after all; but I hope so anyway. Well Old Pal I sure would like to go hunting once more. Just you and me and Old Modoc, but I guess it will be a long old time before we get to go like we used to go. Well, give my love to all and tell Uncle Emmitt when the shot and shells are falling I will love you just the same. LESLIE.

P. S.—We are looking for an order any minute to go on the transport. Good by.

The above characteristic letter is from Leslie Bratton a Maysville boy to his grand father, Mr. Cole Wilson.

Other Maysville boys now at Vera Cruz are: Thomas Butcher, Seventh Infantry, Hoey Hickman, Twenty-eight Infantry.

CORRESPONDENCE

Mrs. C. C. Degman has returned to her home at Maplewood very much improved in health, after a few weeks treatment at Wilson Hospital under the care of Dr. Taulbee.

As Mr. Ward Davenport, our mail carrier was returning home Thursday, p. m., his horse became frightened at an automobile and ran away. Mr. Davenport was thrown out and seriously injured, the wagon reduced to fragments and the mail scattered in every direction. A telephone message was sent to Postmaster Wilson who hurriedly drove to the scene of the accident and gathered up the mail and brought the injured man home.

Survivors have been in the neighborhood the past week re-locating the turpicks because of the dangerous slip in the bank near Mr. Elliott's barn.

NEW LAW

Cuts Down Roll of Inmates at State Reform School About One-Third.

The roll of the State House of Reform at Greendale will be cut a third, it is estimated by Eugene Ray, Secretary of the Prison Commission, by the operation of the new law fixing the minimum age for commitment at ten years, and providing that if a child between the ages of ten and sixteen years is sent there for any offense below a felony the county must pay the cost of transportation and \$100 annually for keeping him there. Mr. Ray said about 200 is the average number of children between the ages of 10 and 16 committed for incorrigibility and minor offenses.—Exchange.

THE ARSENAL IS STILL FULMINED OVER MEXICO. OR WORDS TO THAT EFFECT

Washington, April 28.—The Mexican
crisis is now centering on the efforts of
those who are seeking, through the good
offices and mediation of Latin-America,
find some middle ground for pacific
settlement and those who regard a re-
sort to arms as an inevitable conse-
quence of what has occurred.

Throughout today two distinct
branches of activity were manifest
here—that of the envoys of Argentina,
Brazil and Chile in formulating a plan
of adjustment to be submitted to the
United States and the Huerta regime,
and that of the military and naval
forces of the United States, which con-
tinue to go forward steadily in prepa-
ration for any eventuality which may
develop.

The arrival of General Funston and
a brigade of 5,000 troops at Vera Cruz
was one of the notable military de-
velopments of the day.

NOTES.

Thompson will probably be on the
mound for the locals this afternoon and
Mace will be behind the bat.

The Lexington crowd of 250 failed to
materialize and only about 50 people
came in on the special. A number came
in from surrounding towns and villages,
however.

President Keith formally opened the
season by throwing a strike right over
the plate. Manager Chapman says that
if he can keep up his good work he
stands a good show of getting a berth
on the team.

It is said that a deal is pending for
the services of Pitchers Sanford and
Dashner, formerly of the local team.
The two men would add a lot of
strength to the pitching staff, as this is
about the only doubtful department on
the team.

Harry Wiley, formerly a star out-
fielder on the local ball team, came down
from his West Virginia home yesterday
afternoon to witness the ball game here.
Harry says that he has not played any
professional ball since he left Mays-
ville and would now like to get a berth
on the Maysville team.

Captain Jack Barrett sprained his
ankle while practicing just before the
game started, and for awhile it looked
as if he would not be able to play. How-
ever, he was game, and after having
the ankle tightly bandaged, he went
out and played through the entire game.
This is the first accident that has be-
fallen any player this year and it may
put Barrett out of the game for a mat-
ter of ten days or two weeks.

Some Firsts at the Opener.
Curtis got first double.
Crouch got first walk.
Curtis first man to reach second.
McDaniel first man to fan.

Movie Man Grinds Out a Few Pictures.

The movie man was also on the job
and besides taking pictures of the pa-
rade, he took a number of action pic-
tures at the park. He will finish up
his job today by taking pictures of the
Maysville Fire Company and the "Kin-
ney Mae" in action, the Maysville High
School Building and pupils, and several
of Maysville's largest business houses
and handsomest homes.

"Teddy Roosevelt" on the Job.

Hon. John M. Keys, Commissioner of
Roads and Bridges, Concord, Mass., was
on hand with the Lexington bunch, and
if anybody ever looked like Teddy
Roosevelt, it was he. His hat, glasses,
teeth and physiognomy reminded every-
one of the Colonel. He must have
studied Teddy somewhat, too, for his
every action was that of the famous
ex-President. Mr. Keys is also a mem-
ber of the Massachusetts Highway As-
sociation, a member of the American
Highway Association, a member of the
American Builders Association and an
Associate Member of the Boston Society
of Civil Engineers.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-
class Electric Sign gives to a store is the ele-
ment which gives a sign its greatest value as an
advertising medium and investment. The im-
pression it makes is good. It blazes forth to
the public that there is business enterprise,
merchandise and methods up-to-date. It af-
fects the entire atmosphere of the business
district. The stranger says, "It is a live town,"
and publishes it abroad.
It is the Sign of the Times.
